1	Guideline	General	General	<p>The Royal College of Physicians and Surgeons of Glasgow although based in Glasgow represent Fellows and Members throughout the United Kingdom. While NICE has a remit for England, many of the recommendations are applicable to all devolved nations including Scotland. They should be considered by the relevant Ministers of the devolved governments.</p> <p>The College welcomes this Guideline in an important area. Antibiotic prescribing and antibiotic resistance is a priority for the College. It welcomes the recommendation that antibiotics should be used sparingly. It would suggest a comment about reducing antibiotic resistance.</p>
2	Guideline	3	13	Malignant change should be included here. Biopsy may need to be considered.
3	Guideline	4	14	The choice of antibiotic is very reasonable.
4	Guideline	18	1	<p>A comment should be included to avoid prescribing penicillin V in leg ulcers as it is poorly absorbed and has poor tissue levels.</p> <p>Trimethoprim should not be prescribed in patients on Methotrexate.</p>
