

# Intercollegiate Specialty Fellowship Examination in Orthodontics

## Part B

### Management Section

**This exam paper is property of the Specialty Fellowship Examinations Executive and cannot be used for profit.**

**Intercollegiate Specialty Fellowship Examination in Orthodontics**

**Part B - Management of Healthcare Delivery Section**

**The information below will be provided to candidates during assimilation.**

**Scenario**

10 minutes assimilation/15 minutes examination

Your colleague has been undertaking orthodontic treatment using a technique that is not routinely performed or accepted in orthodontics. The results are poor, but they continue to treat patients in this way.

Be prepared to explain your approach to the above information and further development of the scenario.

## Intercollegiate Specialty Fellowship Examination in Orthodontics

### Part B - Management of Healthcare Delivery Section

**The questions below will not be available to candidates during assimilation, but will be asked by the examiners during the viva.**

#### Scenario

10 minutes assimilation/15 minutes examination

#### Questions

1. How are you going to address this, and what would be your first priority?
2. How would you prepare an audit to assess a technique?
3. It is clear that your colleague is not accepting the recommendations. Outline routes that you would pursue to take this further? Discuss each in some detail.
4. What is revalidation? Explain the purpose of revalidation and why it was introduced.
5. How does revalidation work?
6. As a consultant in a dental specialty, do you need to worry about revalidation? Explain your answer.
7. What component of the revalidation process is important to a dental hospital consultant? Explain your answer.
8. What is the appraisal process and what does it involve?
9. What domains are involved in the appraisal process? Give examples of the type of information you would input in each domain.
10. What other components are discussed at appraisal (if not mentioned above)?
11. What are the benefits of appraisal and what are the problems that could result?
